Subject: Appointment Declined - Eastern Branch in the Division of Community Health Investigations Region 1

Good afternoon,

This will be the first of our Regional Meetings for the Eastern Branch in the Division of Community Health Investigations to discuss regional priorities/workload. I have attached work plans for your region (regional, coop, headquarters) and petition database information (Regions 1-3) to use during the meeting. I'm hoping to have this more streamlined as time goes on and welcome your ideas.

Our goals for the meeting are to review the sites, verify the work, identify priorities, discuss the sites that need to be reassigned and any major impediments to getting the work done. The proposed agenda is shown below.

- I. Introductions
- II. Regional Priorities Overview (site-related)
- III. Review/Discuss Site Workload
- IV. Future meetings

Thanks everyone!

Sharon

Subject: Re: Draft TCE sites summary list

Hi Bob

I don't know if Farhad has already provided this but the list is missing Chem Fab and Kimberton. (b) (5)

[REDACTED] : "... "2012 Annual Vapor Intrusion Mitigation Report" for the Bally Ground Water Contamination Superfund Site (Site)...EPA Toxicologist and EPA Air Modeler. Feedback pertaining to vapor intrusion risk to workers within the former Bally Engineered Structures...

"Table 5: EPA screening levels, not just PADEP levels, should be considered. Only TCE at IAQ-102 exceeded its EPA industrial RSL. The worker risk associated with this concentration (4.6 /m3) would be an HI of 0.5 (based on an IRIS RfC of 2E-3 mg/m3) and a cancer risk of 1.5E-6 (based on an IRIS fUR of 4.6E-6 per ug/m3), assuming 8 · hours/day exposure for 25 years. therefore, the indoor risks appear to be acceptable. "

The report can be found here:

http://www.epa.gov/reg3hwmd/npl/PAD061105128/pdfs/Bally_Ground_Water_2012_Annual_VI_Mitigation_Report.pdf
